

### **3D MODELING TECHNICIAN**

Candidate must have experience with 3D modeling software, preferably Solidworks, or similar modeling program. The ability to accurately interpret paper and electronic drawings of mechanical assemblies and component parts to develop 3D models is an absolute requirement. The emphasis will be on machined components with complex geometry and fabricated weldment components.

#### **REQUIREMENTS:**

- Must be a U. S. Citizen
- 5 years 3D modeling experience
- 5 years minimum experienced with detail drawing interpretation
- High School or Equivalent education
