

## **CNC Mill Machinist with EDM Experience**

Candidate must be a detail oriented person and have a minimum of 10 years of experience, some of which should be in a job shop atmosphere. Experience is required in the set-up and operation of smaller to mid-sized, multi-axis mills with a table size of 30" x 60" to manufacture parts to customer prints and specifications. Personnel shall be required to inspect work during machining operations to verify that quality standards are met or exceeded. Ability to perform job set-up using planned fixtures is necessary. A working knowledge of Geometric Dimensioning and Tolerancing (GD&T) is desired. Candidates must be able to perform minor program edits on Fanuc controlled CNC machines. This person must be a self-starter and possess their own tools as well as able to communicate effectively with co-workers, programming personnel and supervision. Seeking experienced CNC Machinists with Electrical Discharge Machining (EDM) – 4 axis (metal disintegration, wire-cutting and die-sinking) experience and knowledge of U, V axis. Mitsubishi experience a plus. Salary is negotiable and commensurate with experience.

MUST BE U.S. CITIZEN FOR THIS POSITION.
